
SIMPLE

We make complex documents simple.

A free public service. Upload the document that confuses you; get it back clear, in one page.

The most important documents in your life are the hardest to read.

The letter from your insurer. The lease. The tax notice. The retirement plan. You're expected to sign, pay, or decide, without really understanding what they say.

A REAL CLAUSE, FROM A REAL LEASE

"In addition to rent, Tenant shall pay a late charge in the amount of \$___ (if left blank, 4% of the rent payment) for each rent payment made ___ days after the day it is due (if left blank, 5 days if rent is paid monthly)."

Nobody writes like this to be understood. So most of us sign without reading.

THE SIMPLE VERSION

Pay rent more than 5 days late, and you owe an extra 4%.

Every document comes back like this: one clear page that answers three questions.

1. What is this?
2. What does it mean for you?
3. What should you do about it?

No fact is ever lost. Only the jargon.

Three steps, no account.

1 Upload your document

A PDF, a photo, or a Word file. Up to 25 MB. In English or Spanish.

2 We simplify it

A method refined since 2012, now working together with AI. It becomes one clear page: what it is, what it means, what to do.

3 It arrives in your email

Usually in 3 to 6 hours, always within a day. Then your file is deleted.

Built for companies in 2012. Given to people in 2026.

SIMPLE began as a consulting service, helping companies simplify their legal documents. The method worked; the incentives didn't. Companies rarely pay to be understood.

AI changed the math. Instead of convincing companies one at a time, the same method can now serve the person holding the document.

THE IDEA

Clarity shouldn't be something you pay for. SIMPLE is free, for anyone, as a public service.

What SIMPLE is, and isn't.

- It explains documents. It never gives legal, medical or financial advice.
- Your document and its result are deleted after delivery. We keep anonymous statistics only.
- No account, no cost, no mailing list. You get one email: your document, made clear.
- It's a working prototype. If something comes back wrong or confusing, reply and say so; that's how it gets better.

Try it with the document you've been avoiding.

And if you know someone drowning in paperwork they don't understand, send this to them. That's what it's for.
